Detailed Action

1. The following communication is in response to an RCE filed 1/27/2010.

Status of Claims

2. Claims 4 and 5 are currently amended.
3. Claims 8-15 are new.
4. Claims 4-15 are currently pending.

Allowable Subject Matter

5. Claims 4-15 are allowed.

Reasons for Allowance

6. The closest prior art that the examiner has been able to locate is Walker, U.S. Patent 6,163,771. Walker provides methods for processing transactions using an encrypted single-use credit card. The cardholder issues a single use account number, then the issuer of the card generates an authorization code when the cardholder uses the single use account for a purchase.

7. Walker fails to teach issuing a settlement request where the secondary transaction number is not included. As such the Applicant's invention provides for maintenance and record keeping which does not include the users account number, but rather a replacement number

The following is a formal statement of reasons for allowance:

Art Unit: 3693

Claims 4, 5, and 15 are allowed because the best prior art of record, Walker, alone or in combination, neither discloses nor fairly suggest the limitations, in a method and/or computer-readable medium having stored thereon computer- executable instructions that, if executed by a processor, causes the processor to perform operations comprising:

- receiving, by a merchant and via the processor, an account number of a user;

- submitting, by the merchant and via the processor, the account number to a provider of the account number and requesting authorization of the transaction;

- requesting, by the merchant and via the processor, that the provider return a secondary transaction number (STN) in lieu of returning the account number;

- receiving, from the provider and via the processor, an authorization record referencing the STN;

- issuing, via the processor, a settlement request associated with the transaction, wherein the settlement request includes the STN and does not include the account number;

- maintaining, by the merchant and via the processor, a record of the transaction;

and

- replacing the account number with the STN, wherein the record of the transaction includes the STN and the record of the transaction does not include the account number.

Claims 6-14 are also allowable for the same reason discussed above, in that they are dependent on allowed Claims 4, 5, and 15. As a final matter any comments

Art Unit: 3693

considered necessary by Applicant must be submitted no later than the payment of the issue fee and; to avoid processing delays, should preferably accompany the issue fee.

Such submission should be clearly labeled "Comments on Statement of Reasons for Allowance."
